

Our "rolling car show" made it's way down Hwy. 70 on that sunny Saturday morning.

**O**ur annual trip to Hermann Missouri for the annual Shelbyfest proved to be an interesting day. Cool temps greeted our caravanning group in Wentzville. That group included members of our club and of the Show-Me Mustang Club.

After arriving at the river city, the day warmed quickly, making for a real nice day for a car show. Shelbys, Shelbys everywhere, so much that the show expanded to additional streets this year. Our club had eleven members with cars entered plus some of our members were there to spectate.

Unfortunately by mid afternoon, a strong storm front headed our way and many of the group headed home a little early. Some were not so lucky, as the heavy rain turned to hail and at a stop outside of Wright City, we saw a \$100,000 Saleen Mustang with hail damage. We're sure that others had damage also. Bummer!!!

The two clubs together took up most of one side of the street.

Ken Farrar maneuvers his Shelby GT500KR though the narrow streets with Sharon as his navigator.

Left: Ron Schodroski was on hand with a Dave Sinclair Shelby.

Right: It was nice to see Jack Anderson's awesome GT500KR convertible again.

Left: Jim Biermann poses behind his black '09 GT.

Below: Paula & Jim Goodrich displayed their 2012 GT500

Left: Ed Mauzy and family were on hand with their Raptor and Ed also brought Doug Hufendick's 2007 Shelby GT500.

Left: Steve and Barb Dennis brought Steve's Cobra.

Left: Also on hand was some "classic" police presence with this 1964 Ford police cruiser.

John Peluso was on hand with his GT Mustang.

Right: Terry Koch's Bullitt stood out among all of the Shelby's.

This nice Shelby GT belongs to Greg Young.

Left: Mark Carey was able to test out his new 306 Ford crate motor in his 1989 Mustang LX that was prepped by Kenny Simms Racing.

Right: Don Branson displayed the only Falcon in the all Mustang show.

This was the view just before the hail arrived, but most made it home safely.
