

It would appear that we will have to put up with rainy weather at every show we plan to go to this year. Such was the case for the *Rides for Guides* Show that was held at the Machinists Hall in Bridgeton on June 22nd. The threatening weather kept the attendance down, even with our club. We did however have 14 of our cars and trucks registered and 9 won trophies and donated the 1st place cash back to the charity. The show benefits *Guide Dogs of America* and Burt Pennington appreciated our clubs support.

A blast from the past. Long time members will remember the late Wayne Curry's 1968 427 Shelby GT500 KR. The current owner says that the car has been mostly untouched and needs a good clean up.
