

Shelby Fest 2014

On April 26th, twenty plus members of our club headed to Hermann, Missouri for the 8th annual Shelby Fest. The weather started out great and the turnout was outstanding. The event is now open to all Shelby's, Mustangs, and "interesting Fords" and there was plenty of Shelby iron to view. Some of our members arrived early but fourteen of our cars were able to park together. The bulk of the show cars were late model Shelby's and Mustangs but there were a few classics present including Jack Anderson's 1968 KR. Fox bodied ponies were well represented by our club with four in attendance. As mid-afternoon arrived, so did the clouds and many of our members headed east to get home before any possible storm could arrive. Bart McNail who went to the banquet noted that it was announced that this was the last year that this event will be held at Hermann and that for 2015 it will move to Jefferson City. The quaint Hermann atmosphere will be surely missed.

Paula Goodrich supplied this. "Here is a picture from the Mustang 50th that I thought you might want to put in the newsletter. It's of Donald Farr and wife Pam sitting down, and standing next to them is Kyle Carraway of Shelby Fest and his wife Tracy, Jim and I, and next to us are hopefully new members Reg and Mary Stockwell. Reg was also one of the "instigators" of Shelby Fest. He makes parts for Shelby and American Muscle. Mr. Farr was also at Shelby Fest was a guest speaker. I didn't know who he was, but apparently he is quite a celebrity. We were proud to be in his company."
