

On a cool, crisp March morning, 16 of our club's cars and trucks headed towards Hermann, Missouri to tour the Swiss Meat and Sausage Company which is located 12 miles south of Hermann on Highway 19 in the quaint village of Swiss, Missouri.

Swiss Meats is a premier sausage company and it's award winning meats are sold all over the state and at some of our local shops.

Founder, Bill Sloan was our tour guide and navigated us through the process. We were shown the sides of meat, where certain cuts come from, how it is processed, packaged and stored.

After the tour, we partook in the cuisine and were able to purchase many samples to take home.

We thank Dan Kelly for all of his leg work on our Spring event and it was noted that we did not make one U-turn. There goes our reputation!
