

MCSTL Car Show

Mother Nature put a damper on the Mustang Club of St. Louis car show that was held on June 7th at the Museum of Transportation. The early hours were fine but before noon, the skies opened up and the convertible tops went up. Surprisingly, the rain stopped in time for the trophy presentation and the storms didn't reappear until the drive home.

Our club did our part with 18 registered cars and trucks. The show was a benefit for *Autism Speaks* and all proceeds went to the charity. Our club won the \$50 club participation which was donated back to their cause. Show chairman, Mike Herbert, noted that there will be a rain date next year.
