

Over the past few decades, car shows and cruises usually took place from May to late September. Mostly due to the increase in local car shows, the season has been expanding. To the best of your editors memory, we have not been involved in a car event in November other than the Veterans Day parade, but this year was the exception. Our club, along with the Route 66 Corvette Club, were asked

to display our cars at the McDonalds that is located on Mid-Rivers Mall Drive, just off Highway 70 in St. Peters. The event was supposed to be a display with both clubs showing cars but it filled the small parking lot with many different cars. Our club had 10 cars participate on that unusually warm November 7th. With most of us thinking that the show season was over, it was a great way to show our cars one more time.
