

SIMA Car Show

Great weather brings out many cars as we found at the Southern Illinois Mustang Association 38th all Ford show held at Roberts Ford on July 16th. Normally the hottest show of the year, this day topped out at 87 degrees with much lower humidity than we had had earlier in the week. Great weather for mid July. They broke a record with 170 entries and were running out of space. One of the car parkers told me that they were only set up for 130 cars. Great problem to have. Our club had 24 of the entrees and we were able to win the club participation money, which we donated back to one of their charities.

Ten of our members were able to win a trophy with four taking home the gold. As always, our club seems to always be a presence at most of the local shows.
