

Mustang Roundup

When I crawled out of bed on Saturday April 7th for the Mustang Roundup, the temperature was 25 degrees with a chill factor of 16 degrees. Since I needed to be there to cover the event for our newsletter, I had to go. I figured that we may have 4 or 5 members show up and only stay for a short while. To my surprise, we had 13 cars and 2 trucks show up and stayed most of the morning. This was a much smaller group than we usually have, but a great turnout considering the weather. Unfortunately, there were only an additional 13 cars in attendance. We thank the Mustang Club of St. Louis for putting on this first car event of the year that was a club event for our club.
