

DEMO BALL

Our club closed out the winter season on a cold and rainy Saturday night with a trip to the Adrenaline Zone in St. Charles for a couple of hours of Demo Ball topped off with some pizza and salad. This March 19th event went off very well with no unexpected trips to the emergency room although we're sure there were some sore muscles the next morning. This was our third trip to the Adrenaline Zone although it had been a couple of years since had the pleasure of beating each others brains out. We thank Syl Biermann for setting up the event and to all who were able to participate.

DEMO BALL
