

Valley of Flowers Car Show

On May 6th, the Valley of Flowers car show was held in Old Town Florissant. Although the show has been around for years, it was now under new management and unfortunately, it showed. The classes were mostly geared for older cars and this kept many of our members away.

Expecting just a few cars from our club, we were surprised to have 17 of our members in attendance. Six were able to take home a trophy or plaque.

They did still have a very good turnout and ran out of places to park the entries. They also did not collect money when entering so many cars were just parked and became display vehicles.

In their defense, they did apologize at the end and were taking suggestions and would improve on the show next year.

Never the less, the beautiful spring day offered at a great day to show our cars.
