

Again, mother nature tried to mess us another car show but did manage to hold off until most of us got home dry.

The June 26th event did suffer from the threat of rain and only had 59 registered cars and trucks. Our club did our part as we registered 19 Blue Oval products and two of our members

brought their brand X cars.

The storm held off until about 30 minutes after your editor got home and it did bring some small hail and heavy rain.

Burt Pennington was part of this show and appreciated our support. Hopefully, next years event will have a better weather day.
