

Classic Cars and Warbirds

On May 19th, our club attended the Classic Cars and Warbirds display at Smartt Field in St. Charles County. The beautiful day had a great turnout with 19 of our members displaying their cars and trucks. There were several other car clubs in attendance, but our club definitely had the highest number of cars present. Unfortunately, the B-25 was out on a bomb run (joking) and was not there. This did take the wind out of our sales as the WWII bomber is the real star of the show.

Around noon time, many of our members headed to the Quick Change facility in St. Charles to support the Show-Me Mustang Club with their fundraiser that was held there and their turnout was also very good.
